OBJECTIVE

To get an opportunity to improve my technical & management skills and bring value to a development team in a full stack or backend/frontend role with increased complexity. I prefer one that I can utilize & improve my knowledge of frameworks.

EDUCATION

2015 - 2016	CERT. in SOFTWARE DEVELOPMENT The Tech Academy of Portland – Vocational School (Portland, OR)
2014 - 2015	CERT. in FRONT END WEB DEVELOPMENT Thinkful – Vocational Mentorship (Remote, Internet)

TECHNICAL SKILLS

- **LANGUAGES:** JavaScript, PHP
- **FRAMEWORKS/LIBRARIES:** Vue.js, Nuxt.js, jQuery, Laravel, Lumen, WordPress, Shopify
- **OTHER SKILLS:** Node.js, AWS, Firebase, Linux/Unix, Git, MS TFS, MySQL, MariaDB, Postgres, Mongo, REST APIs, AJAX, HTML, CSS, SASS, Bootstrap, Vuetify, Xd, Illustrator, Photoshop

PERSONAL PROJECT

Website and client portal web app for marketing agency to communicate with clients. Decoupled architecture with an API-first JAMstack approach, hosted with deployment hooks. Backend is a REST API built with Laravel includes Oauth and JWT auth. Client is built with Nuxt/Vue and is generated SPA on the app and SSR on public pages with content from headless CMS.
